Login page

Centered social-only authentication

COMPLETED

Login Page

Place it in center

Place it in center

Put brand Logo

Remove this
(No Email and PW option to Login)

Keep only "Continue With Google"
and "Continue with Apple Account"

SOURCE MARKUP - PAGE 1

VERIFIED DEPLOYED UI

IMPLEMENTED

- Centered brand mark and title
- Removed email and password controls
- Kept Google and Apple account actions
- Retained consent and legal copy

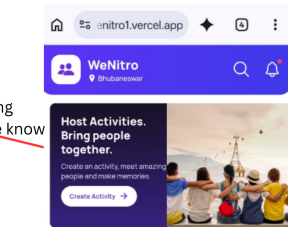

Home page - hero and activities

Motion, alignment and horizontal discovery

COMPLETED

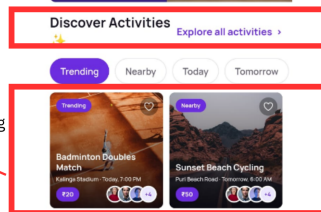

Home Page

This section should be 4-5 slides auto-running left to right direction. If you need content let me know

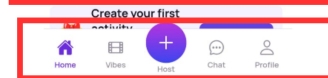

This alignment not showing correctly on Phone

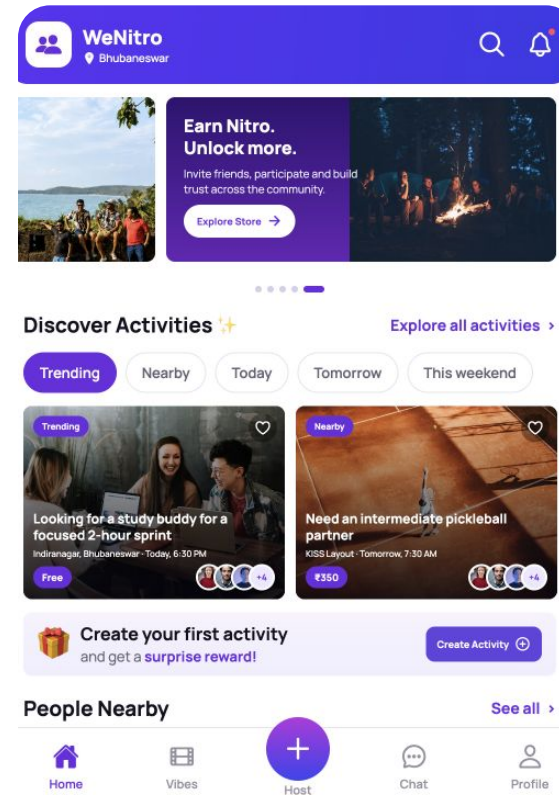

Should show 8-10 activities side to side on sliding manually, and then "View All" button at the end.

Do some animation here when tapped

SOURCE MARKUP - PAGE 2

VERIFIED DEPLOYED UI

IMPLEMENTED

- Five auto-advancing hero slides
- Stable mobile alignment and progress dots
- Eight activity records available
- Horizontal cards with View all end-cap

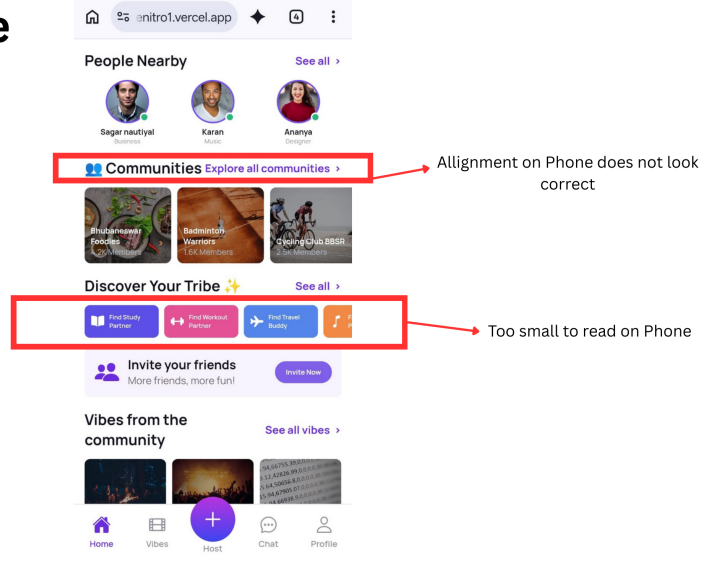

Home page - discovery

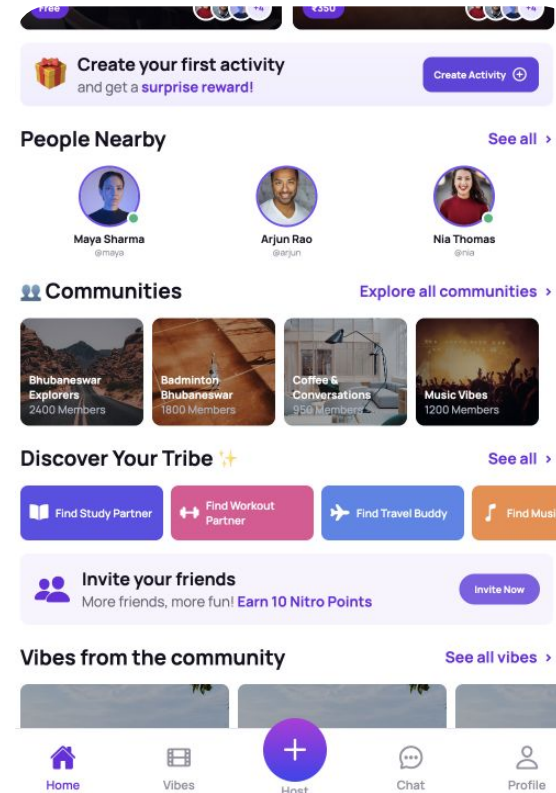

Communities and partner-intent modules

COMPLETED

Home Page

SOURCE MARKUP - PAGE 3

VERIFIED DEPLOYED UI

IMPLEMENTED

- Aligned community heading and action
- Readable community image cards
- Larger tribe controls
- Horizontal overflow remains intentional

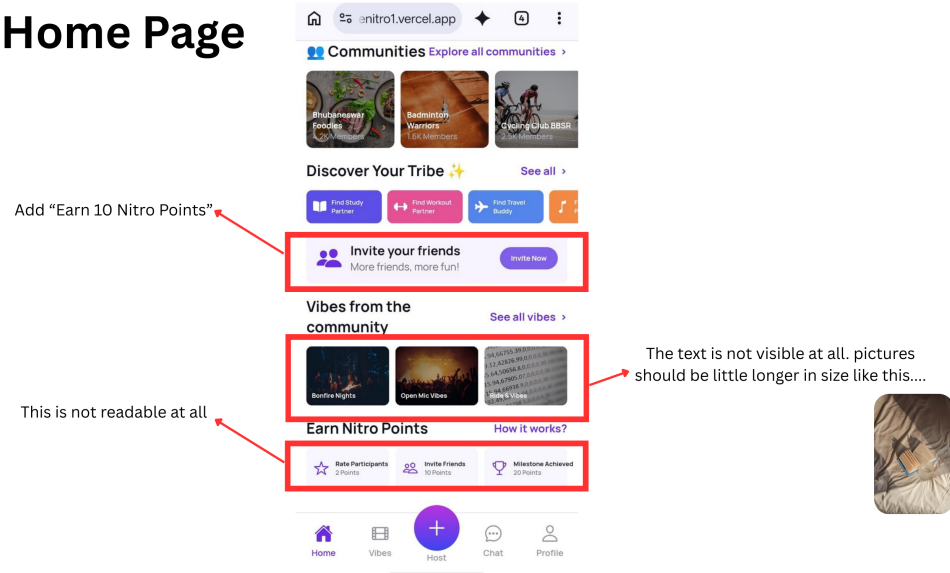

Home page - rewards and Vibes

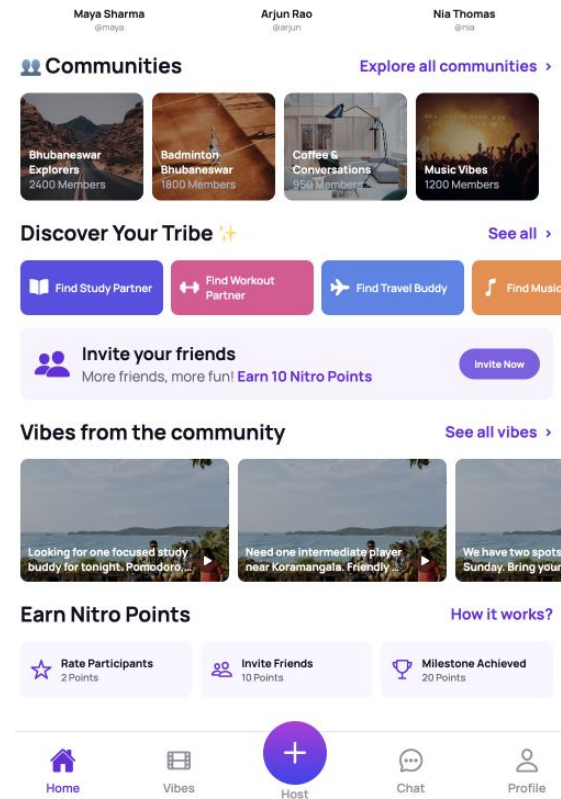

Readable incentive and community content

COMPLETED

Home Page

SOURCE MARKUP - PAGE 4

VERIFIED DEPLOYED UI

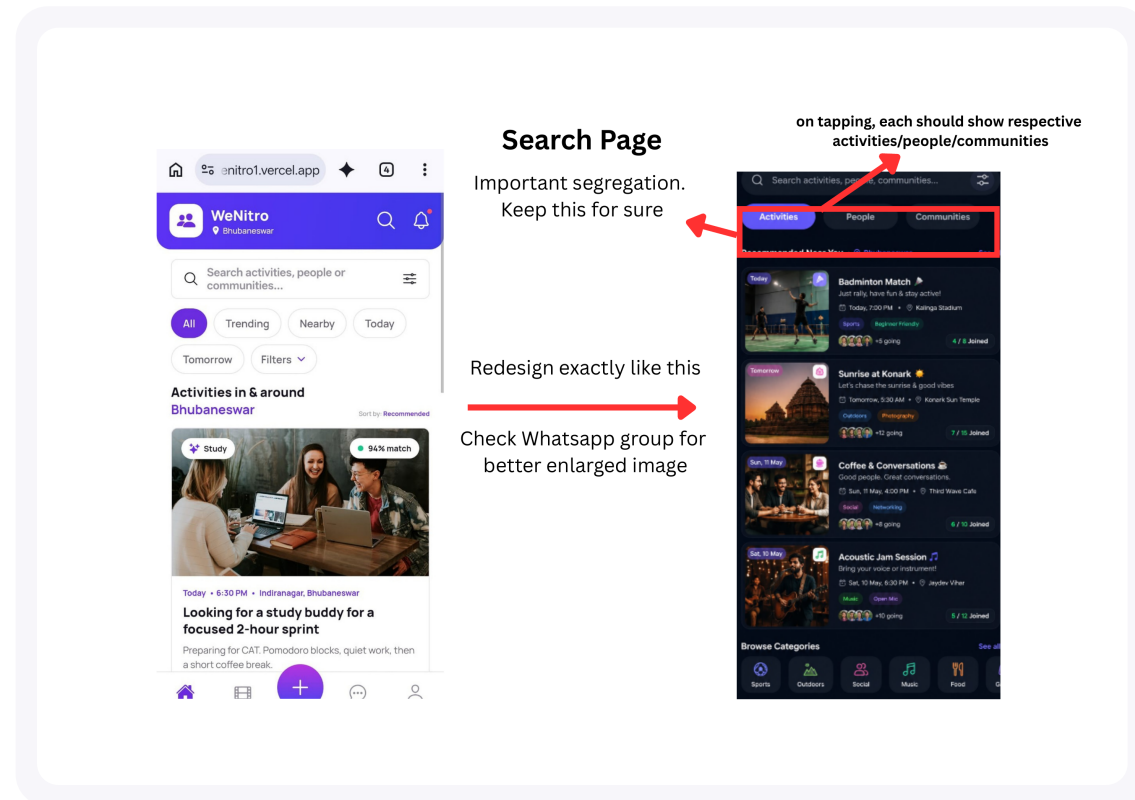

IMPLEMENTED

- Earn 10 Nitro Points now visible
- Vibe previews increased to 190 x 112
- Captions and play affordances visible
- Nitro earning cards use larger type

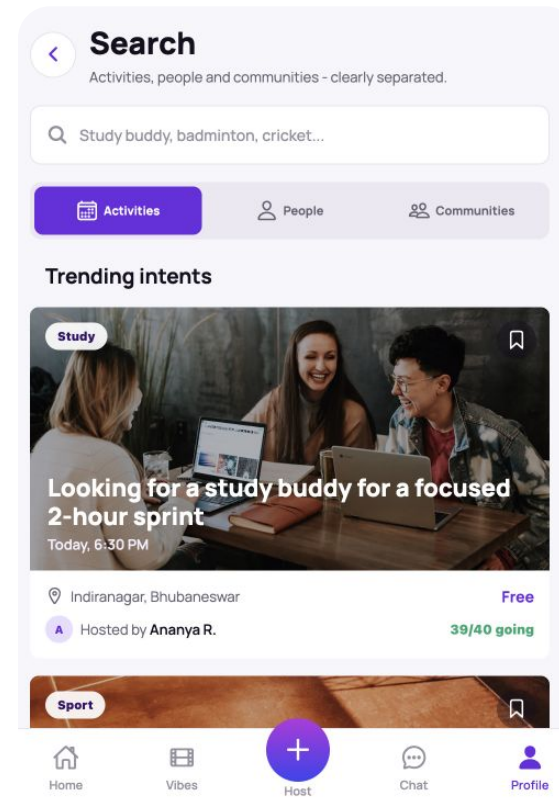

Search page

Required content segregation

● COMPLETED

SOURCE MARKUP - PAGE 5

VERIFIED DEPLOYED UI

IMPLEMENTED

- Dedicated Activities, People and Communities tabs
- Each tab renders its own result model
- Intent search remains prominent
- Mobile-first segmented control

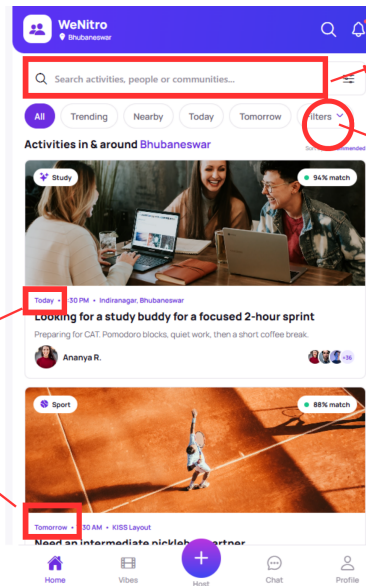

All activities page

Exact dates and functional filters

COMPLETED

All Activities Page

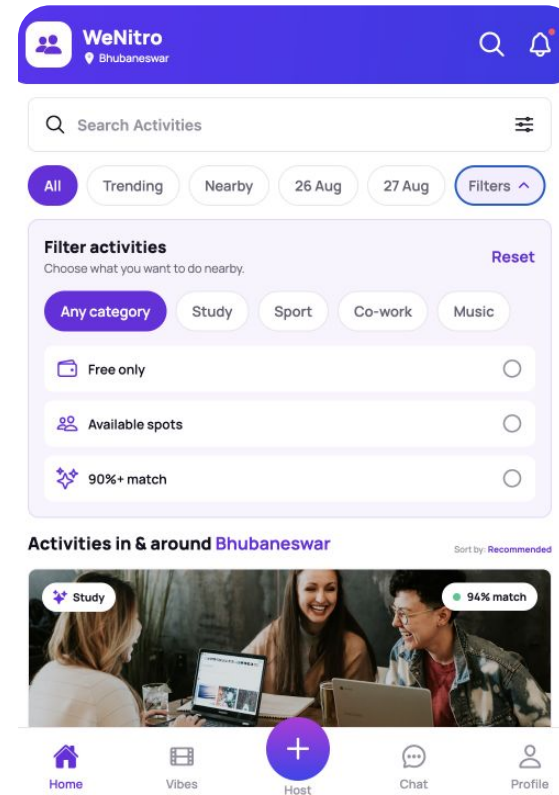

On Activities page, Change the Placeholder to only "Search Activities". Rmeove People and Community.

This Filter option should function similar to the existing App we have. Check the source code.

Change this Today/Tomorrow to exact Dates.

SOURCE MARKUP - PAGE 6

VERIFIED DEPLOYED UI

IMPLEMENTED

- Placeholder is Search Activities
- Today and Tomorrow replaced by dates
- Expandable filter panel
- Category, availability and match controls

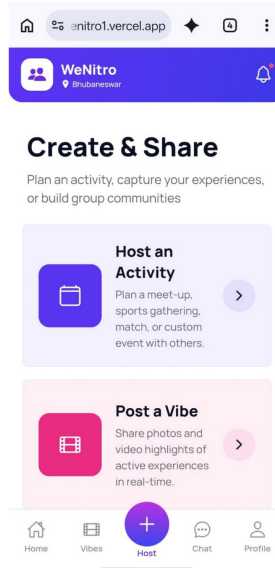

Host page

Phone-scale Create and Share layout

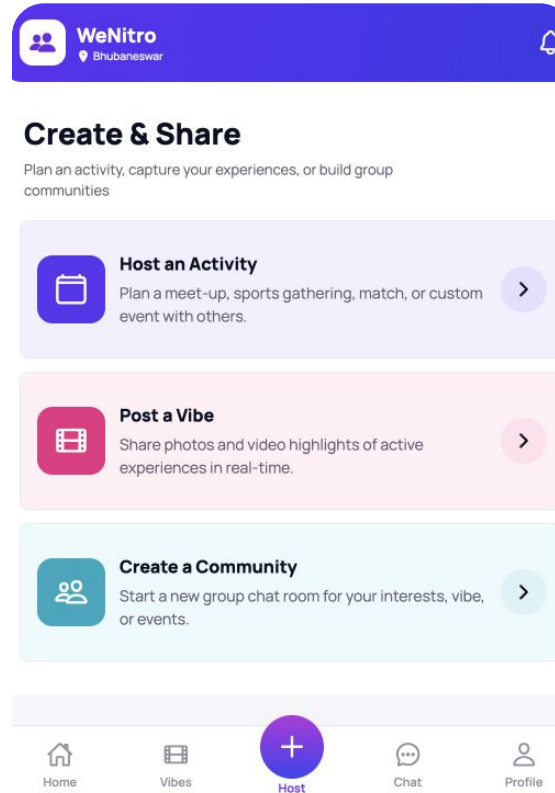

COMPLETED

Host Page

Font and size of each section looks very BIG on Phone screen. Adjust accordingly.

SOURCE MARKUP - PAGE 7

VERIFIED DEPLOYED UI

IMPLEMENTED

- Headline reduced to 27 pt
- Cards reduced to 126 px minimum
- Icons reduced to 62 px
- All three actions fit comfortably

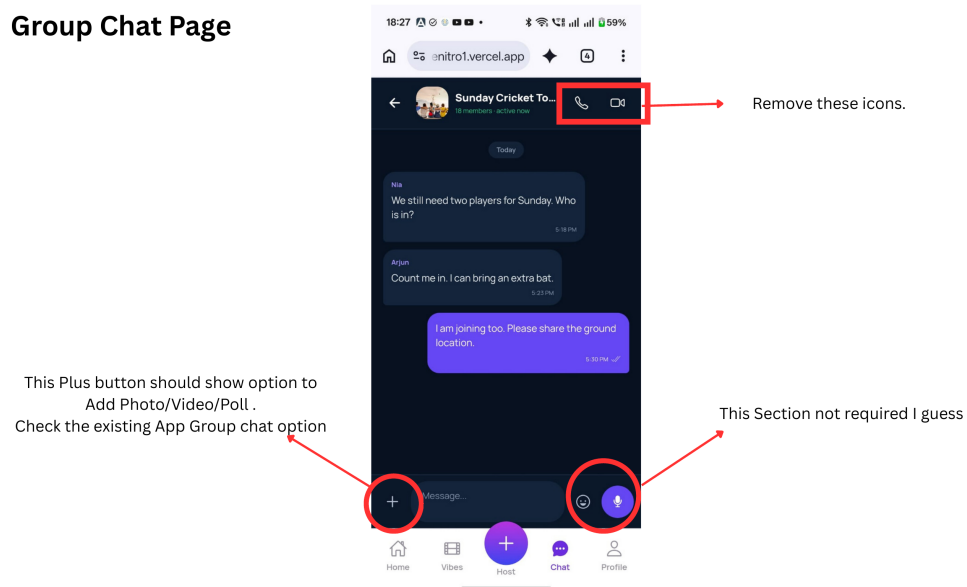

Group chat page

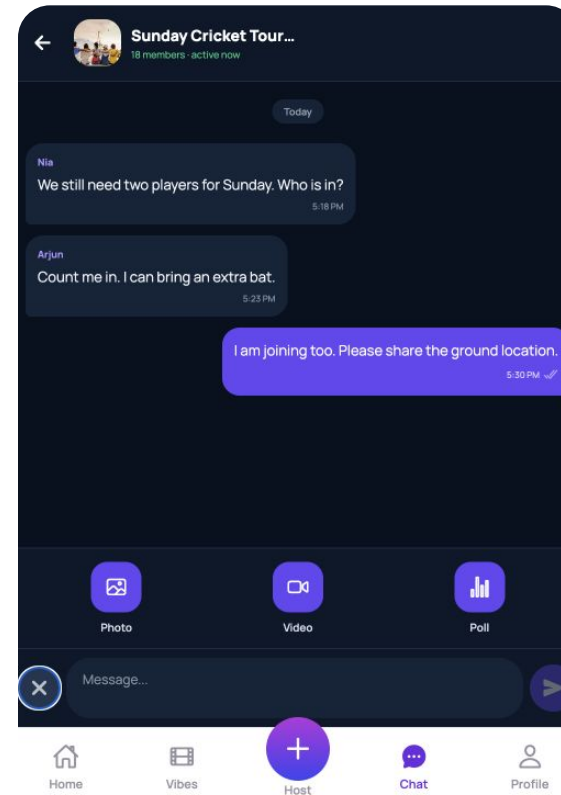

Simplified header and attachment workflow

COMPLETED

Group Chat Page

SOURCE MARKUP - PAGE 8

VERIFIED DEPLOYED UI

IMPLEMENTED

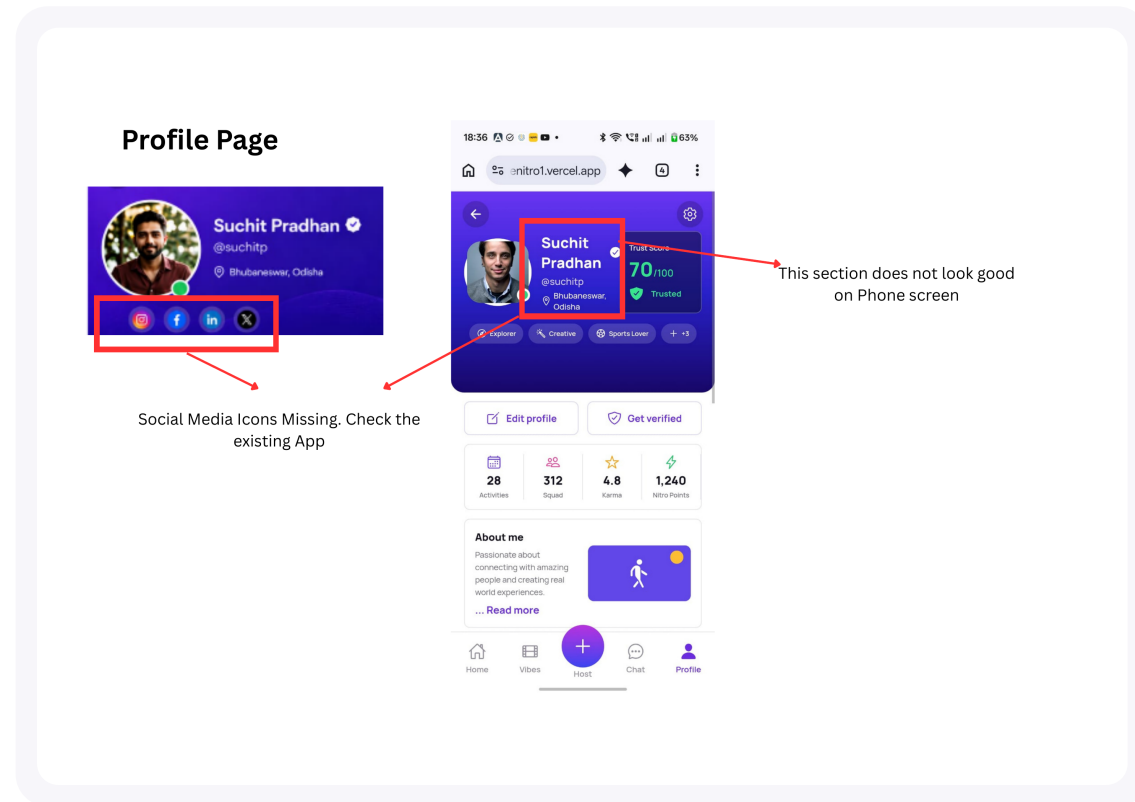

- Removed call and video header actions
- Removed emoji and microphone controls
- Plus menu offers Photo, Video and Poll
- Group messaging and send state retained

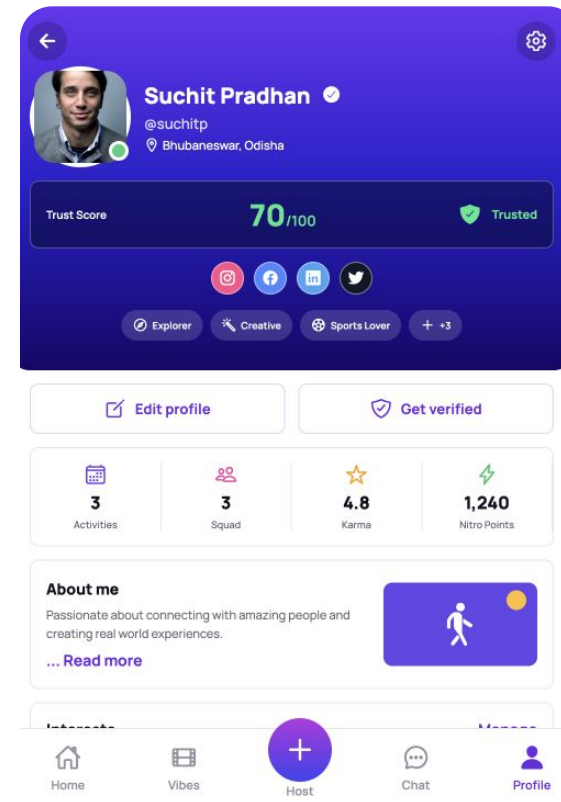

Profile page

Responsive identity and social presence

COMPLETED

SOURCE MARKUP - PAGE 9

VERIFIED DEPLOYED UI

IMPLEMENTED

- Trust score wraps into a full-width row
- Social icons added
- Profile image upload remains available
- Stats and action buttons remain connected

Verification page

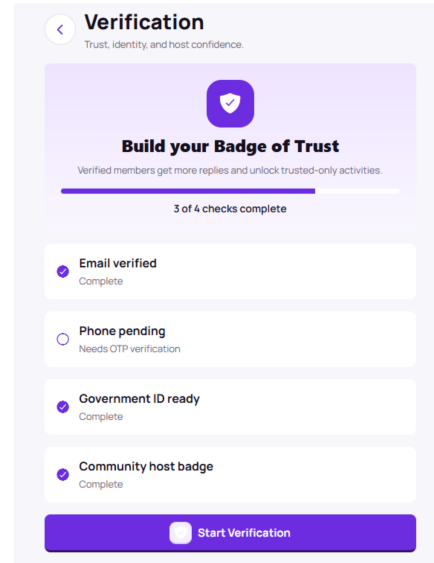

Weighted trust score with complete criteria

COMPLETED

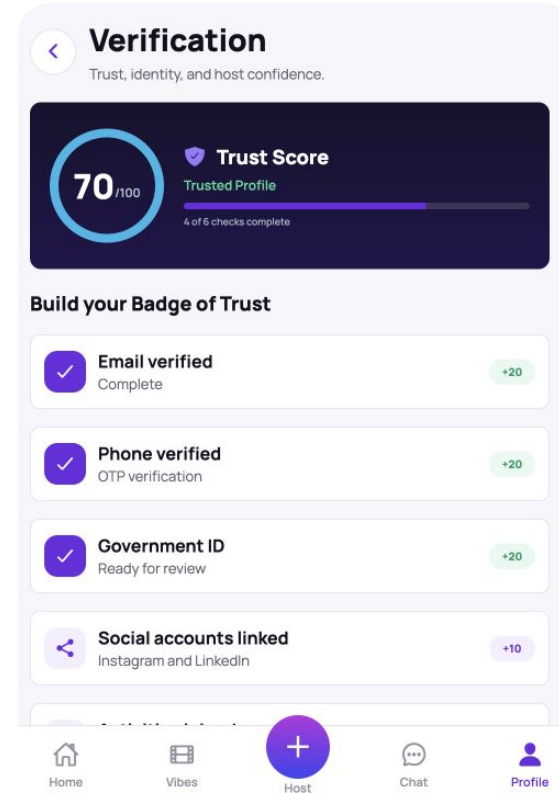

Verification Page

Mention the scores for each verification and Show the total score. Add: Activities joined, and 4.0+ avg rating

SOURCE MARKUP - PAGE 10

VERIFIED DEPLOYED UI

IMPLEMENTED

- Score shown as 70/100
- Point values shown for every check
- Activities joined criterion added
- 4.0+ average rating criterion added

Verification and delivery

The final bundle was type-checked, exported through the real Vercel build pipeline, exercised in a phone-sized browser, and restored to authenticated production mode.
